Message From Managing Director

Having a highly experienced team of staffs and technical experts QG has established a state of the art steel fabrication factory in khilpara, south shalna Gazipur. Our factory is equipped with latest fabrication machinery metal cutting, Forming and welding equipment, which provide us with the most updated fabrication capabilities.

Our obligation is to provide the highest quality products and services to meet the needs of our customers. More than a decade quantam group have been serving you with its four concern QBEL (for steel buildings), LA construction(For RCC buildings), Win pen Ltd (for UPVC Doors & Windows), LA sandwich panel & PEB House (for Sandwich panel). QBEL has become one of the leading and prominent companies in Bangladesh in steel arena. QBEL has the ability to fabricate small, medium and large orders. Customizing various types of architectural metal work. Each day is a new day, dawned with new challenges appearing on the horizon to be scaled; I along with my team of professionals and experts take these challenges as targets and successfully achieve them accordingly up to the satisfaction of our valued customers. From the concept to completion Quantam Group provides a full range of services that are designed to aid our customers in achieving their fabricating objectives. Our experience and resources allow us to work from customer furnished ideas, design drawings or from designs and plans that we generate in house through consultation with the client. We care both beauty and user friendliness in designing structures. QG has the expertise and the production facilities To produce a wide range of steel building products.

And we serve a multitude of industries: chemical, textiles, spinning, garments, food and beverage, power plant, agricultural, petrochemical and construction. For us, our core values area, understanding of our customers, demand and precision, which guide us in our entire strategic and tactical decision making.

Quality management system and quality control of our products as well as engineering services with highest precision is our top most priority to keep ahead of modernmarket demands, so that our clients can retain their business relations with us. And your success is our mission.

Mohammad Rafiqul Islam

Managing Director

Quantam Group

Introduction

It has been almost 13 years, that Quantam Builders and Engineering Ltd. (QBEL), Quantam La Construction, LA Sandwich Panel & PEB House, Win Pen (WP) Ltd. are have been serving you since 2003 under the one banner of Quantam Group (QG). Quantam a name which is trustworthy, a name which is hope for millions those who seek guaranteed quality works with quality materials under precise supervision. We are immensely happy and proud to serve you in such glorifying way. Dynamic, meticulously designed steel buildings; aristocratic win pen; well finished and eye catching sandwich panel and world class RCC buildings,

By providing all these services at its best we have become one of the leading and eminent companies in Bangladesh. We do strongly believe that Quantam is one of the few companies having necessary set up and expertise to provide a complete solution for residential, industrial, and commercial buildings (Both RCC and Steel).

We have completed hundreds of projects only under QBEL since the establishment of manufacturing plant in Bangladesh which range from 5,000 sft warehouse to 150,000 sft spinning mill and from standard 9m high factory buildings to 30m tall sugar mills, ceramic industries, power-plant, re-rolling mills.

We believe that Quantam Group is one of the Leading company having necessary set up and expertise to provide a complete solution for residential industrial and commercial building & building materials.

Our Mission

The mission of Quantam Group is to become the paragon in business arena not only in Bangladesh but also in the world. Our pledge is to establish long-lasting relationships with our customers by exceeding their expectations and gaining their trust through commitment and quality service with consistency.

Our Vision

The vision of Quantam Group is to provide the complete solution for residential, Commercial and Industrial Buildings. Which will be not only Well-Engineered but also Economical & Environment-friendly.

Our Services

- Precise design with Engineering Flexibility
- Effective Solution
- Precise Fabrication
- Installation with Expertise
- Attractive and Versatile
- Using modern Fabricating Machines
- Competitive Price, Fastest delivery & Services
- Uncompromised Quality

Bureau of Assessment Services

Managing Assurance with Confidence

Certificate of Registration

This is to certify that

Quantam Builders & Engineering Ltd.

House: 52 (2nd Floor), Road: 13/C, Block: E, Banani, Dhaka-1213, Bangladesh.

has been assessed by Bureau of Assessment Services and hereby attests that the organization has satisfied that it operates a Quality Management System in accordance with the requirements of

ISO 9001:2008

The Quality Management System is applicable to:

Design, Fabrication, Forming, Supply, Erection, Development, Construction, Management and Marketing of Pre-Fabricated Steel Structure (Pre-Engineered Buildings) for Composite Structure like Flyover, Bridge, Residential, Industrial & Commercial Buildings & Developments of Domestic & International Projects.
[EA/NACE: 29/46.69]

Certification Manager
Bureau of Assessment Services

Certificate issue date : 30-June-2014

Certificate valid till : 29-June-2017

Certificate No : AE-BAS-Q0002320

Further clarification regarding the scope of the certificate and the applicability of ISO 9001:2008 requirements may be obtained by consulting the organization.

This certificate remains valid while the holder maintains the management system in accordance with the standard above, which will be audited by Bureau of Assessment Services through surveillance audits. This certificate remains the property of Bureau of Assessment Services. Lack of fulfillment of conditions as set out in the certification agreement may render this certificate invalid.

Issuing Country: Bureau of Assessment Services, P.O. Box: 118898, Al Karama, Dubai, United Arab Emirates.

Bureau of Assessment Services (UK) Limited, 2 Woodberry Grove, North Finchley, London N12 0QR, United Kingdom
Company Number: 07519257.

Letter of Appreciation

Continents Power Construction and Engineering Ltd
F-106, Mohakhali School Road, Banani, Dhaka, PO:1213, Bangladesh.

Commendation letter 表扬信

To Quantam LA Construction:

致公司:

This commendation letter is, to this company, in the power plant's temporary facilities' sandwich panel production, the material quality, delivery period, after-sales services have met the owner's requirements, the material quality is excellent, the production cycle is fast, the installation and construction Engineers and staffs are responsible, any problems could be resolved quickly, Quantam LA Construction is a reputable manufacturer, if there is anymore demand, we will definitely cooperate again!

此表扬信致该公司在电厂的临建彩板房生产, 材料质量, 供货周期, 售后服务方面均达到业主要求, 材料质量优良, 生产周期快, 安装施工人员负责任, 问题解决响应迅速, 是一家有信誉的生产厂家, 如有需求, 肯定会再次合作!

OFFICE ADDRESS: House-102, Park Road, Baridhara, Dhaka, Bangladesh

Quantam Builders and Engineering Ltd.

Perspective of Quantam Pre-Engineered Building System

Superior Product Quality

- Design Quality is consistent and is based on latest design in USA codes.
- Welding is done by professional welders.
- Materials are ordered as per recognised standard.
- Fabrication is done as per a quality plan.

Fast Project Construction

- Anchor bolts are delivered earlier than the building
- Buildings are fabricated and delivered within a short period due to standardisation.
- Fast erection because all members are field bolted.

Functional Versatility

- Modular Construction.
- Large Clear Spans (up to 100m).
- Long Bay Spacing (up to 13m without Jack Beams).
- Buildings are easily expandable on all sides (allowing for future expansion).

Low initial cost due to

- Aesthetic Features such as fascias, parapets and curved eaves greatly improve the appearance of the building.
- Flashing & Trims are available in different shapes and colors.
- A wide range of wall & roof sheeting.
- Readily available interface details between steel and other materials (glazing, block wall, curtain wall etc.)

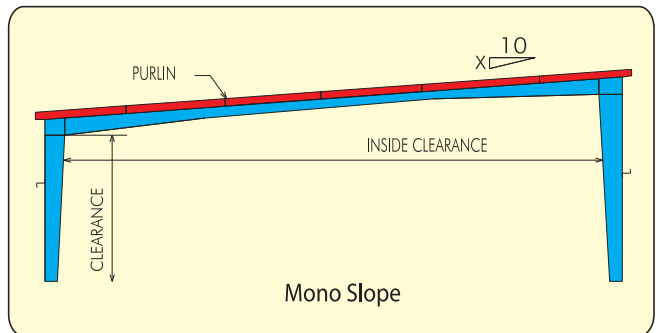

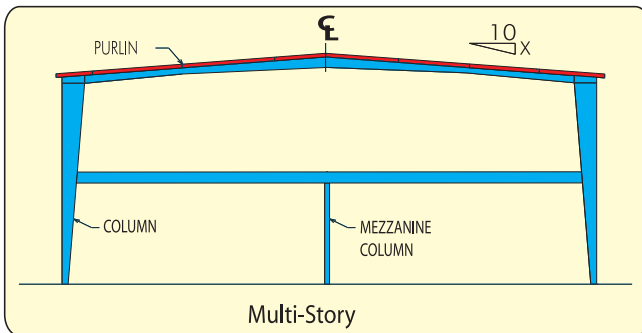

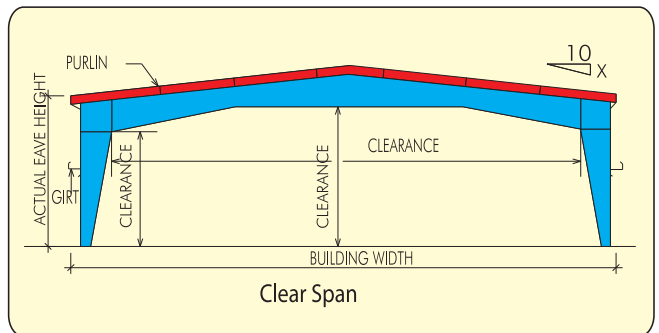

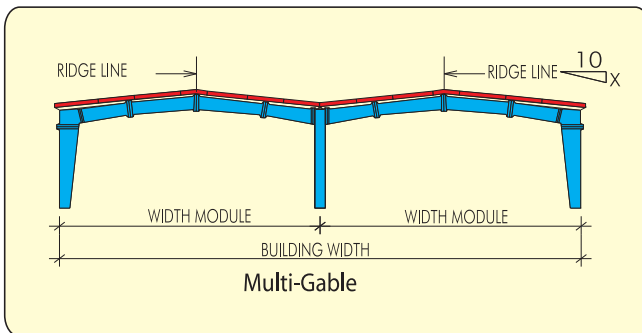

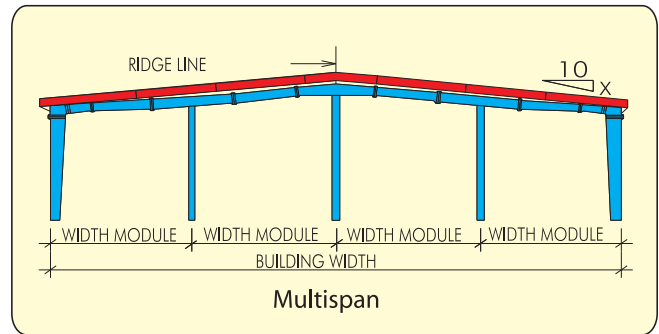

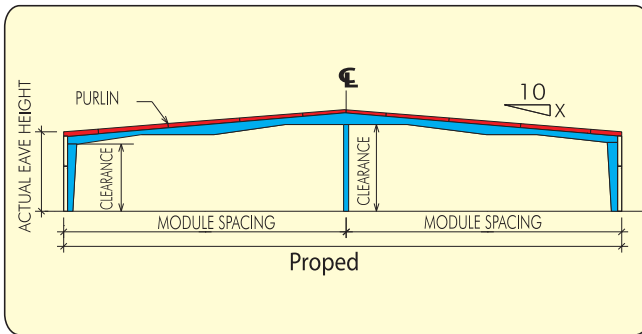

Low initial cost due to

- The use of tapered built up structural members (Columns & Rafters).
- The use of Z shaped secondary members (Purlins & Girts) that allows overlapping.
- Foundations are fewer and lighter.

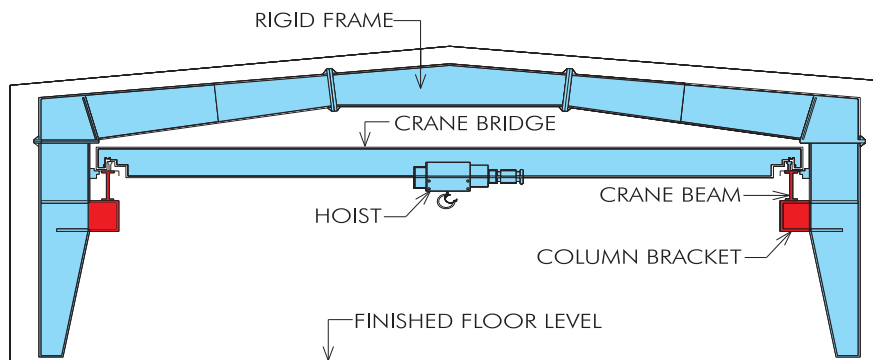

Low Maintenance and Operating Costs.

- Virtually no maintenance required for all panels.
- Roof requires only periodic cleaning.
- Annual washing of Eave gutters.
- Watertight roofs.
- Energy efficient roof and wall systems through usage of insulation.

LA Sandwich Panel & PEB House

LA Sandwich Panel & PEB House

Introduction

LA Sandwich Panel & PEB House Production process adopts the Al-Zn Alloy color coated steel sheet as surface board, and the core material is the self-extinguishing closed cell polystyrene foam, It is a kind of high-strength composited building materials, and it was formed in the automated continuous molding machine, by combining the pressed Al-Zn Alloy color coated steel with the high strength adhesives. The Sandwich Panel is featured with temperature keeping, hot & sound insulation, anti water and fire resistant. It is widely used as the wall or roof insulation for Power Plant, Cold-storage, Poultry Firm, Hatchery, Pharmaceutical, Industrial Workshop, Commercial Building, Public Building etc.

Sandwich Panel Production Line (Wall Panel)

Sandwich Panel Production Line (Roof & Wall Panel)

Advantages

- ❑ Economical and environmental protection
- ❑ Good resistance for high temperature
- ❑ Fast and easy installation, save labour cost and working hour
- ❑ Low maintenance and it has long life time
- ❑ Excellent water proof performance
- ❑ Heat insulation and Sound proof
- ❑ It has handsome appearance and excellent anticorrosion performance

Worker Dormitory

Application

- ❑ For wall and partition in the warehouse.
- ❑ Ideal for high-rise building and multi-story building
- ❑ Factory and dormitory Building etc.
- ❑ Widely used in roofing, wall decoration and interiorexterior decorative material.
- ❑ Sandwich Wall Panels are widely used as wall panels in warehouses, factories exhibition hall, prefabricated house, container houses and other industrial and civil buildings.

Portable Cabin

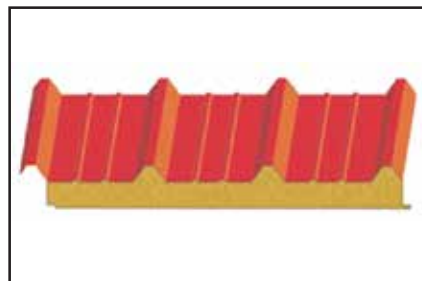

Main Technical Parameters of Sandwich Panel & Porta Cabin :

Panel Thickness (mm)	R - value (m^2K/W)	U - factor (W/m^2K)	Average Sound Insulation R (db)
50	1.31	0.76	20.00
75	1.97	0.51	21.50
100	2.63	0.38	23.00
150	3.95	0.25	24.50
200	5.27	0.19	26.50

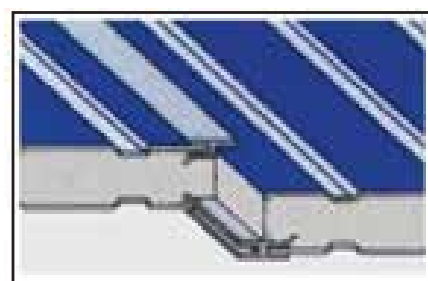

Note: Free span: 10 ft X 10 ft (for 50mm)
Mass: 824 gm/sft (for 50mm)

Why U-PVC Window and Doors?

- Energy Saver (30-35% Saving on your electricity bills)
- Sound & Heat Insulated
(EPDM gaskets with multi chambered UPVC profiles prevents outside sounds and noises)
- Weather Proof & Non-corrosive
(UV resistance of U-PVC impregnated and infused with exclusive and distinct additives)
- Low thermal conductivity of U-PVC minimizes power consumption
- High Strength & Long durability
(Durability and Longevity of U-PVC with impact modifiers)
- Fire Resistant
(U-PVC materials used in Win Pen are fire resistant and do not support or enhance accidental fires unlike their timber counterparts)
- Water
(Drainage channel & EPDM gasket prevents from water percolation)
- Heat, extreme temperature withstanding competence of U-PVC

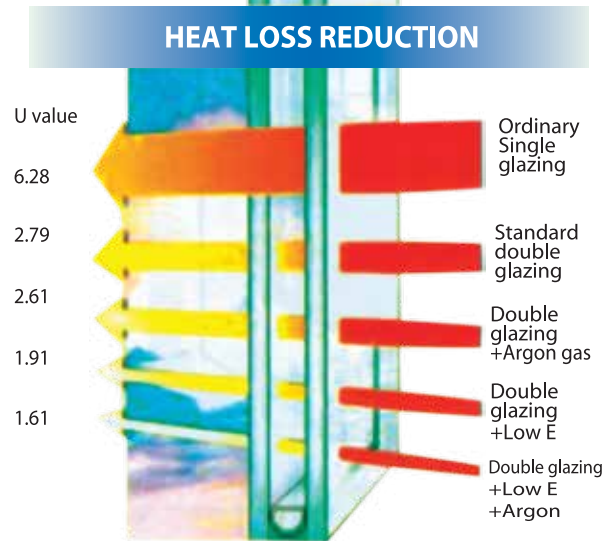

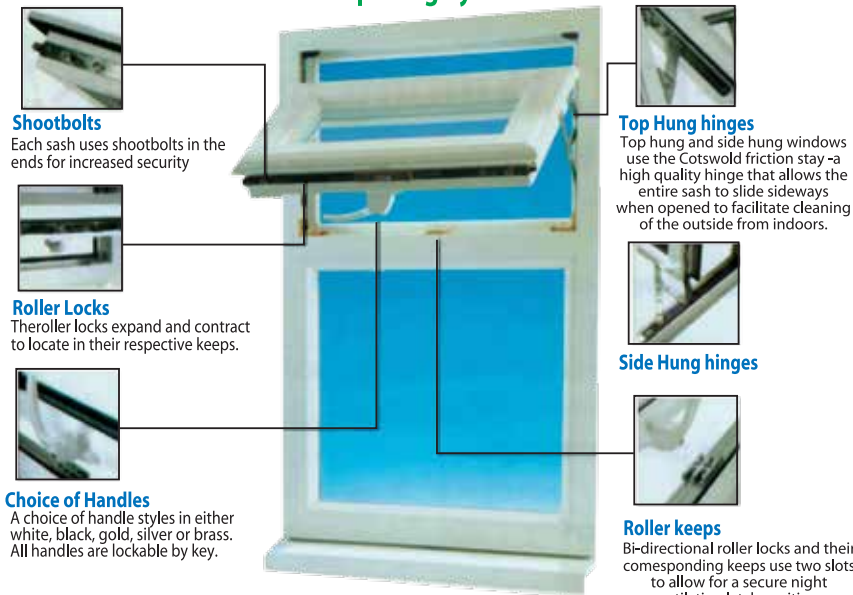

Comparison of window frame construction materials

Consideration when selecting frame materials for windows?	Wood	PVC	Alumunium
Does it pit peel corrode, rot or warp in bad weather?	yes	never	yes
will it remain structurally strong?	yes	yes	yes
Does heat or cold transmit through the material?	Only if kipt dry	no	yes
Is it cool all year?	Only if kipt dry	yes	no
Will it reuire painting or other maintenance?	Only if kipt dry	never	yes if scratched
Will scratches show as a different colour under the paint?	yes	no	yes
Does soap and water cleaning make material look new again?	no	yes	no
